Life With
Chameleons

Rhampholeon acuminatus, Tanzania (Katrin Pawlik)

copyright Life With Chameleons

JANUARY 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31	

Provide your chameleon with UV light, necessary i.a. for correct calcium metabolism, natural or artificial (remember to change your UVB bulbs about every 12 months, for maximum efficiency).
(Mindy Miskuff)

Furcifer pardalis, Ambliobe, Madagascar (Lisa Marie Nunes)

copyright Life With Chameleons

FEBRUARY 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
						1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	29

**Keep your chameleon on the cool side.
Cooler temperatures are easily tolerated,
and contribute to chameleons that are more
relaxed, weigh less, and females lay fewer
clutches.**

(Mindy Miskuff)

Furcifer pardalis, Nosy Be, Madagascar (Robyn Parker)

copyright Life With Chameleons

MARCH 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31				

Humidity cycles are crucial for preventing respiratory infections. It's best to have higher humidity during night hours and lower humidity during daylight hours, with plenty of ventilation, as found in nature.
(October Hunt)

Trioceros jacksonii xantholophus, Kenya (Daniel Kolečka)

APRIL 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30		

Make sure your chameleon has lots of real plants and branches to feel safe and comfortable in and simulate this way the natural environment.

(Bettine Weber-Galien)

Trioceros laterispinis, Tanzania (Petr Nečas)

copyright Life With Chameleons

MAY 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
					1	2
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30
31						

Feed bee pollen to chameleons with each meal. It is absolutely natural, as chameleons feed mainly on pollinators and pollen is a source of many vitamins, minerals and other nutrients that gives energy, boosts immunity and protects against diseases.

(Petr Nečas)

Chamaeleo arabicus, Oman (Vojtěch Vít)

JUNE 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30				

Keep your chameleons in a way that they can see each other from a safe distance, not provoking their aggression. This way, they will behave naturally, males will not be aggressive towards females and will not lose the interest in mating.

(Petr Nečas)

Furcifer lateralis, Madagascar (Katrin Pawlik)

copyright Life With Chameleons

JULY 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31	

Summer can be a dangerous time for your chameleon, especially outdoors. Monitor temperatures daily, do not allow overheating and never turn your back on a chameleon you have outside.

(Mindy Miskuff)

Calumma flonotum, Madagascar (Petr Nečas)

copyright Life With Chameleons

AUGUST 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
						1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	29
30	31					

The best for your chameleon is natural sunlight, but be sure he has shady places and can't overheat.
(Katrin Pawlik)

Furcifer pardalis, Ankaramibe, Madagaskar (Petr Nečas)

copyright Life With Chameleons

SEPTEMBER 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30			

**Treat your chameleon with love and respect,
it is not a property, it is a live being. It will
pay you back in revealing the secrets of his
life.**

(Petr Nečas)

Chamaeleo calyptratus, Yemen (Jann Besok)

copyright Life With Chameleons

OCTOBER 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31

You are what you eat! Diet and supplementation of vitamins and minerals are two keys to having a happy healthy chameleon. Feeding a variety of quality, gut- loaded insects, in addition to species specific lighting, and supplementation (including bee pollen), is a winning combination for healthy chameleons.

(Britany Pena)

Triceros fuelleborni, Tanzania (Petr Nečas)

copyright Life With Chameleons

NOVEMBER 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30					

The only way how to ensure wellness, long term reproduction and longevity of chameleons in the captivity is to permanently study their life history in the wild and unleash the secrets of Mother Nature and then apply them wisely to their captive environment design and management.

(Petr Nečas)

Furcifer pardalis, Nosy Be, Madagascar (Petr Nečas)

DECEMBER 2020						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30	31		

Provide your chameleon with water the naturalistic way: let him spend the cool nighttime in fog and let him hydrate this natural way.

(Petr Nečas)
